Career Objective

Computer Science and Engineering student with hands-on project and internship experience in software development, project coordination, and UI/UX design, including Inventory Management, Gesture Detection and Figma-based design prototypes. Seeking a professional opportunity to apply my skills in software development and project management, and to continuously grow through new learning.

Education

Bachelor of Engineering in Computer Science and Engineering — Aug 2023 – Present
SVERI's College of Engineering, Pandharpur

Higher Secondary Certificate (HSC) – 80.67% — Aug 2022 – Mar 2023
Sadashivrao Mane Vidyalaya, Akluj

Secondary School Certificate (SSC) – 94% — Mar 2020 – May 2021
Sahakar Maharshi Shankarrao Mohite-Patil Vidyalaya, Velapur

Experience

Project Management Intern — CloseKart — Jun 2026 – Aug 2026

- Coordinated planning and execution of product-related tasks across design, development, and QA teams, ensuring deliverables were tracked within sprint timelines.
- Created and maintained project timelines and task boards to monitor progress across multiple concurrent workstreams.
- Assisted in requirement-gathering discussions with stakeholders and translated business needs into actionable tasks for the team.
- Prepared weekly progress reports, improving visibility into milestones and blockers for the team lead.

Projects

AI-Based Incorrect Gesture Detection System

- Built an AI-powered posture detection system to help users identify and correct unhealthy sitting or standing habits in real time, using computer vision techniques.
- Achieved 90% detection accuracy on test data, enabling reliable real-time feedback for posture correction.

AI-Based Retinal Disease Detection Platform

- Developed a platform for retinal image analysis with features for patient monitoring and eye-health screening.
- Added tablet reminders to help patients maintain their medication schedule.
- Integrated a doctor consultation feature to allow patients to seek professional second opinions.

Inventory Management System [Figma Design]

- Designed user-friendly application interfaces and prototypes using Figma.
- Implemented the designed screens in Flutter with reusable widgets and responsive layouts.
- Developed modules for inventory, products, stock management, and user profile.

Technical Skills

- **Languages:** Python, HTML5, CSS3
- **Database:** MySQL
- **Tools:** Git, GitHub, VS Code, Flutter
- **UI/UX:** Figma, Canva, Wireframing, Prototyping
- **Project Management:** Project Planning, Team Collaboration, Task Tracking, Stakeholder Coordination
- **Soft Skills:** Team Coordination, Event Management, Leadership, Adaptability, Problem-Solving, Creativity

Certifications

- TATA Forage – Data Visualisation: Empowering Business with Effective Insights (June 2026)
- Developing Soft Skills and Personality – NPTEL (2025)
- Google Cloud Computing Fundamentals – Google Cloud Skills Boost (2025)
- Python Programming – Udemy (2024)

Achievements and Extra-Curricular

- Competed in multiple technical and creative contests, including hackathons, ideathons, poster design, and typing speed competitions.
- Served as Event Coordinator for Chakravyuh 2.0, managing end-to-end logistics and cross-team coordination for 200+ participating teams.
- Designed responsive UI/UX prototypes using Figma.
- Secured 94% in SSC and 80.67% in HSC.
